Palestine, Jenin, Jallbon

Objective:

As a computer system engineering with programming skills in front-end and communications skills and loves to develop continuously, I believe I am qualified for an opportunity that you're offering. I am excited to apply and improve myself, learn new skills.

EDUCATION:

2019-2024: Computer Systems Engineering in Arab American University (GPA 3.18).

2018-2019: Tawjihi certificate in Jenin Boys Secondary School (Rate 86.4).

Skills:

Programming: C++, good in problem solving, HTML, CSS, JavaScript, TailwindCss

Version control, ReactJs.

Participation in IEEE Xtreme 16.0 Programming.

Participation in Code Fighters Competition for problem solving.

Third place at the level of the Arab American University in Never Give Up Problem solving Competition.

Participation in Code force Contest.

Projects:

Graduation Project: Designing a system capable of recognizing people through the face to monitor attendance and absence at the university by using Python programming language (using face-recognition and NumPy and open-cv libraries) to program the Raspberry Pi and connect it to mobile application build by flutter.

Portfolio Project: Developed a personal portfolio website using React.js and Tailwind CSS to show up my skills, projects, and experiences. The project features a modern, responsive design with smooth navigation and interactive elements, optimized for performance and accessibility. Utilized React.js for dynamic component rendering and Tailwind CSS for rapid UI development and customization, ensuring a consistent and visually appealing user experience across all devices.

Training:

Asal Technologies internship program as Front-End developer.

Paltel Customer Support.

A course in Basic of Artificial Intelligence (AI).

A course in community Leadership from the Palestine Achievement Foundation.

A course in Internet Marketing Basics.

A course on how to be an Entrepreneur from the Palestine Achievement Foundation.

Language:

Arabic and English: very good in Speaking, Writing, reading
